### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Charles Sherman (Reg. No. 22,998) on February 11, 2005.

The application has been amended as follows:

*In the claims,*

- (a) On line 17 of claim 1, "neck" has been changed to --finish--,
- (b) On line 19 of claim 1, "lower portion of said finish bead" has been changed to --finish bead transition surface when said closure is in a fully applied position on the container--,
- (c) On line 17 of claim 13, -- said annular step operably engaging said neck bead transition when said closure is in a fully applied position on the container;-- has been inserted after "container;",
- (d) Claims 8, 21 and 22 have been cancelled.

2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach a closure and container wherein the tamper band of the closure has an annular step above the tamper bead, and the annular step engages the container finish bead transition surface when the closure is fully applied on the container. The prior art of record also does not teach a closure and container combination wherein the frangible webs between the skirt and tamper band extend from the annular step.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
